

Dear Moraitis School Families,

Inspired is the leading global group of premium schools educating about 90,000 students, in over 115 schools, across six continents. Inspired is a definitive statement of excellence in private education; designed to inspire students to achieve their maximum potential in a nurturing, progressive academic environment. Inspired schools offer a fresh and contemporary approach to education by combining traditional teaching methods and curricula with a dynamic, relevant and powerful model that reflects current attitudes. The focus is on identifying and developing the unique individuality and talents of all students, building their confidence and equipping them to take on the world with the skills and self-assurance to ensure success.

We are honoured and excited to be chosen as the new partner for the Moraitis School and to work with the senior leadership team and staff to continue to serve the communities of current, past and future students and parents.

This marks the first partnership in Greece for Inspired. Greece has experienced a period of remarkable growth and transformation and is on a path full of promising opportunities. Only the best schools in the world join Inspired and we are proud that the best school in Greece is now part of the group. Moraitis has an impressive track record of academic success. The quality and pedigree of the school team, the outstanding academic results and achievements of the students, and the long list of remarkable alumni who are now renowned individuals in their own right, are a testament to the exceptional legacy of Moraitis. Furthermore, we believe that Inspired's vision and values fully complement those that have underpinned the growth and development of Moraitis; these shared values, combined with the benefits of a shared best practice from a global group, will further enable the school to reach its greatest potential.

Each Inspired school has a strong reputation along the three pillars of academic, performing arts and sporting excellence. Alongside Inspired's exceptional academic provisions, students' horizons are broadened through enriching international exchange programmes and unique, global summer camp experiences. While exploring new and exciting environments, students develop the lifelong skills of independence, confidence, and resilience to help them flourish and succeed.

All the Inspired schools have proven to be beacons of excellence with innovative, ground-breaking achievements in all aspects of their holistic educational provision. Indeed, like Moraitis, Inspired Schools are amongst the highest performing in the world, despite being non-selective. The following accolades are just some of the Inspired Group's achievements: ACG Parnell is ranked the best school in Auckland, New Zealand; Reddam House Sydney is ranked the best co-educational school in New South Wales (Australia); Colegio San Patricio, Spain is ranked the best school in Spain; and St Louis School, Milan has the highest five-year average IB scores in

Continental Europe. St. George's Internal School, Switzerland is the top IB school in Switzerland and was recently awarded joint leading IB school in Europe.

We appreciate that Moraitis has an exceptional reputation, and we want to reassure you that it is joining a premium group of a wider, high-performing and forward-thinking group of schools. Each of our schools, while rooted in - and contributing to - its own community, forms part of a dynamic global group, providing opportunities for the exchange of ideas and international best practice amongst students and teachers. This is precisely the sort of global education that we know will be an advantage in tomorrow's world, and from which we are certain the students and staff of Moraitis will derive great benefit, to further flourish and succeed.

I am proud that Moraitis has decided to join Inspired. I have personally experienced the impressive character and achievements of the students at the Moraitis school. We hold the school in high regard due to its prestigious history and its continuous commitment to excellence which we look forward to contributing to. From my time spent with the school and its team, our values align - we focus on celebrating each child's individuality alongside providing a premium education, with both achieving an impressive history of outstanding academic results. We encourage students to have confidence in their abilities and leadership qualities, while fully engaging in their learning to achieve their full potential. We are excited to offer all Moraitis students access to Inspired's technology platforms, enriching opportunities for international exchange programmes, global sports events and performing arts activities, as they form meaningful and unique global connections with other students at Inspired schools across the world. We look forward to working with this vibrant community of students, teachers, and parents to ensure continued excellence in every aspect of their educational experience.

We look forward to meeting you in person where we will share more information on Inspired, and to working with you for the benefit of each Moraitis School student over the years to come.

Yours sincerely,

Nadim M Nsouli
